

## **IFHIMA Corporate and Educational Institution Membership Opportunity**

The International Federation of Health Information Management Associations (IFHIMA) is a non-governmental organization (NGO) with membership in all categories (National, Associate, Educational Institution and Corporate) spanning 62\* countries.

For over 55 years, IFHIMA has been committed to the advancement of health information management (HIM) practices and the development of its members for the purpose of improving health data and health outcomes.

IFHIMA has enjoyed NGO status in official relations with the World Health Organization (WHO) for over 45 years. This includes voice and vote on the Family of International Classifications Committees (FIC) as well as other committees and task teams. Additionally, IFHIMA partners with other organizations such as the International Medical Informatics Association (IMIA) to share knowledge and best practices and foster initiatives that can positively impact world health.

Today, the world is increasingly more digital; healthcare has become more multidisciplinary and health systems much more complex. Membership in IFHIMA is your opportunity to join us as we prepare HIM professionals to face new challenges and opportunities in artificial intelligence (AI), digital health, and new coding and classification systems while strengthening the profession globally.

In addition to helping IFHIMA advance its mission, membership in IFHIMA brings tremendous benefit with promotional opportunities for your products or institution for two consecutive years.

### **Two years of benefits!**

- Ongoing ad in the *IFHIMA Global News* (eNewsletter) which is published three (3) times a year and distributed to our membership and contact management database, promoted on the IFHIMA website.
- Your logo on a special page of the IFHIMA website with a link to your institutional or organizational website.
- Placement of one article per year in the *IFHIMA Global News*.
- Preferred vendor rate for a Congress held within the membership term.

- Special recognition at the triennial Congress that may include speaking opportunities.

#### Inclusions

- Membership for two individuals is included with either Educational Institution or Corporate membership.
- These individuals have the same privileges as other IFHIMA individual members, including the right to serve on IFHIMA workgroups, committees, task forces and in our Communities of Practice.
